The Chanthaburi Fruit Festival is one of the most **1** festivals in Thailand. People come to the festival in Chanthaburi and enjoy many different kinds of tropical Thai **2**. The festival is held in May because that is when the fruit harvest begins.

My family has a fruit **3** in Chanthaburi. We grow fruits like grapefruits, mangoes, papayas, rambutans, and durians. Every year we make a fruit float for the festival. We decorate the float with colorful tropical fruits, **4**, and flowers. This year, we hope to win the float competition. This is Lamon, reporting from Chanthaburi, Thailand.
